

Project objectives

The main objective of this project is to provide the training staff and managers with the key competences they need to have in the field of adult education in order to carry out all training activities in accordance with European standards. Thanks to the knowledge, skills, experiences and practices gained through the trainings, the objectives that we think will provide benefits both locally and regionally in terms of the changes, solutions and new ideas for adult education are stated below.

OBJECTIVES OF THE PROJECT :

- To acquire knowledge, skills and experiences in the areas of teaching, counseling and guidance, programme planning, support and ICT use which are important in the development of adult education
- To improve the professional knowledge and skills of staff on issues such as the management of adult educational institutions and improvement of andragogical approaches, thus to improve the quality of education provided to adults and to provide internationalization and modernization of our institution
- To increase the general level of staff training and quality in the adult learning sector and help adults by providing new ways of developing their knowledge and competences
- To develop collaborations among institutions providing adult education across Europe and establish a strengthened collaborations with partner countries
- To contribute to making adult education comparable- Improving policy development in adult education sector, improving governance and providing better services
- To ensure not only teaching, but also focusing on the concept of broader learning, paying attention to the welfare, motivation and transformation of the individual
- To provide development by identifying the various needs, opportunities, potential and capacities of adult learners and meet the educational needs of the aging population
- To develop creative applications in adult education and facilitating the sharing among countries and support the development of innovative ICT-based content, services, andragogy and practices for lifelong learning
- To establish a continuous professional development system, creat awareness of European citizenship and creating cross-cultural awareness and develop foreign language skills
- To increase the participation rate of adults in adult education in our country by improving the adult learning process and to contribute to the 2020 targets determined by the European Union commission(on avarage at least 15% of European adults will be involved in lifelong learning activities by 2020)
- To accelerate the process of evaluation of skills and social competences and to ensure their validity and recognition in terms of learning outcomes and ensure a better recognition of competences gained through the learning periods abroad
